T5269-5

15A PROGRAMMABLE WI-FI THERMOSTAT

A refined look.
Connected comfort.

The fifth-generation CosyFloor thermostat pairs a clean, modern profile with simple on-wall control and app-connected convenience.

Designed around the way people live

1. **Streamlined Gen 5 design**
   A sleek, low-profile face that feels at home in contemporary spaces.

2. **Clear LED display**
   An easy-to-read display with responsive capacitive touch controls.

3. **Bluetooth and Wi-Fi**
   Pair with the UWG5 app over Bluetooth, then connect to Wi-Fi for app access.

4. **Smarter daily comfort**
   Set a 7-day program, use adaptive start, and connect with Alexa or Google Home.
